- Standing candidates in general elections to represent the needs of New Zealanders.
- Advocating policies that support the **poor, working class, and underrepresented** communities.

Our Vision

Our mission focuses on empowering the **weakest members of society**, including the **forgotten heroes, homeless, and low-income families**. When we strengthen the foundation of our nation, the entire country thrives—economically, socially, and spiritually.

We aim to:

- Address the struggles of 80% of New Zealanders living at modest income levels, whose sacrifices and contributions often go unnoticed by other political parties.
- Support low-income families by providing them with tools to achieve independence and pride in their accomplishments, reducing reliance on welfare systems.
- Reduce crime rates, creating safe and happy communities across New Zealand.

Our Promise

The People's Party New Zealand is dedicated to serving the people by:

- Advocating for policies that protect and empower the poor and working class.
- Recognizing the vital role of low-income families in sustaining the nation's economy.
- Promoting fairness, equality, and mutual respect in all interactions.
- Offering inclusive solutions that address systemic challenges while respecting traditional values.

We believe that by supporting and uplifting the most vulnerable, we strengthen the entire nation. Together, we can create a brighter, more unified future for Aotearoa New Zealand.
